

Pink Class

Pink class have been learning about the changes we see in our environment as a result of the changing seasons. We have been outside the classroom into the playground to look at the trees and how many had few leaves left. We took a basket to collect lots of leaves in different colours that show us that we are moving into Autumn. We found green, red, brown, yellow and orange leaves and sorted them in to groups of colours then added them to a collage of tree's in the different colours.
