

GOLD CLASS

October proved a very busy month for Gold Class. We have done a lot of work using sensory stories, learning about supportive technologies, implementing our therapy programmes and Curricular Goals in many different ways. We learned about Harvest time by listening to the Harvest songs and exploring sensory trays with vegetables, fruits. We also enjoyed outdoor adventures, looking for signs of the autumn, experiencing change of the weather and changes in the nature through sensory stimuli. We enjoyed treasure hunt, looking for different colour leaves, had fun throwing them up in the air and listening to their crunchy sounds. We also explored muddy trays and went for a bear hunt – very exciting and busy time!
